

# RENEE KENNEDY

SPECIALIST ROTTWEILER JUDGE BREEDER HANDLER  
FCI AUSTRALIA  
DELLAHAR ROTTWEILERS

# RENEE KENNEDY

My kennel prefix is Dellahar and was established in 1994 by my mother Diane Harrison. I have been a part of this kennel since I was 10 years of age and passionate about Rottweilers ever since my mother introduced me to this amazing breed as a child. I have been fortunate enough to experience exhibiting many other breeds over the years as a junior handler.

My heart has always belonged to the Rottweiler but I'm still happy to jump in to help show other breeds if asked. Being a part of Dellahar Rottweilers has taught me many valuable things about Rottweilers, life in general, and I will continue to be a student to the breed for long to come. There's always something this breed teaches me.

Some memorable moments stand out over the years such as owning and breeding Australia's very first female NRCA Champion Dellahar Aztec Gold 'Skye', who also had over 700 cc points, Skye won Best of Breed at the Royal Melbourne Agricultural Championship Show against an entry of 79, owning and breeding Australia's highest Specialty winning female Aust. Champion NRCA Champion Dellahar Imme CCD, breeding WA's first National Champion Aust. NRCA Champion Dellahar Cruzn Around, travelling to Rottweil Germany in 2013 to see the prestigious Klub Sieger. There are too many proud moments to mention here as I have handled so many of the best Rottweilers in this country has seen to multiple V ratings, challenges, Aust. Titles, class/group wins, Runners up In Shows and Best in Specialty Show wins. I feel honored to have shown so many beautiful examples of our breed to these results for their owners.

On another note. I am married with three young children, two boys and a girl, my husband has a successful concrete cutting and polishing company, which I'm very grateful for as he supports this very expensive hobby of mine. I live in a small country town an hour's drive north of Melbourne, Victoria. My other interests

include food, cooking and trying new things, water sports such as wake boarding, surfing and knee boarding. I've recently taken up target shooting as my son is quite talented at it; I'm looking forward to attaining my license and learning more.

Although my priority is my family at this point in my life, I've always kept as involved as I can with Rottweilers. My dogs are very much a part of my whole family, we enjoy travelling around many states in Australia attending specialty shows, being very competitive and aiming to achieve consistent V ratings and placings. Thanks to social media, it is much easier to keep in contact with Rottweiler friends worldwide, research, learn and see how the breed has evolved.

I have various other experiences with this breed and its capabilities, I have participated in numerous breed surveys, practiced obedience, protection and endurance work. The Rottweiler is certainly not just a show dog to me; I love this breed because it has no limits.

I became a Rottweiler specialist judge to help preserve and promote this breed, hoping my experiences, opinions and knowledge can in some way help anyone involved to carry on this breed successfully themselves.

Thank you for supporting me with your entry and I hope you enjoy my judging.

Renee Kennedy.
